

Sustainable Plastic Product™

- Promotes eco-friendly plastics and practices
 - Results in less plastic waste in the oceans and landfills
- ⇒ spp™ provides energy, waste, and recycling audits, sustainability report, and spp™ certificate.

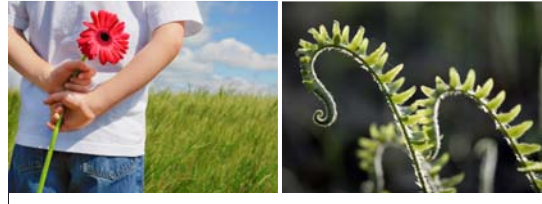

Sustainable Plastic Product™

- ✓ Uses Life Cycle Assessment
- ✓ Identifies carbon credits
- ✓ Provides environmental audits to
 - lower energy usage
 - reduce pollution, and
 - increase recycling

Don't Be Left Behind

Good for Our Industry
Good for Our Planet

sustainable plastic product

Become certified so you can display the Sustainable Plastic Product's logo on your packaging to make your verified sustainable product stand out.

Sustainable Green Products, Inc. is led by Dr. Joseph Greene, a world-renowned biodegradable plastics expert and member of the ASTM Sustainability and Biobased Plastics committees. He has presented his sustainable plastics research all over the world.

Become More Sustainable

Life Cycle Assessments (LCA)

Carbon Credits for Plastics Recycling

Post Consumer Plastics Recycling

Operation Clean Sweep (OCS)

Biobased and Biodegradable Plastics

Heavy Metal Free Plastics

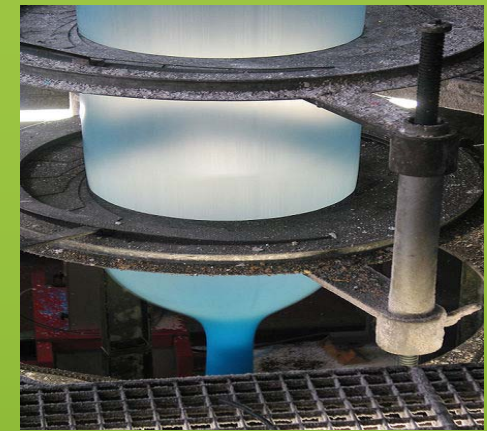

- ✓ Today's consumers want to minimize their environmental impact and use sustainable products.
- ✓ Today's consumers want to feel good about their choices.
- ✓ spp™ helps plastic film and packaging companies become more sustainable.
- ✓ spp™ gives plastic film and packaging manufacturers the credibility to say:

We Care!

spp™ will:

Identify in-plant sustainable practices

- Identify plant waste diversion and recycling rates
- Implement Operation Clean Sweep (OCS) Practices

spp™ will help you:

- Reduce your carbon footprint
- Identify carbon credits
- Provide certified sustainable plastic products to your customers
- Lower energy and water usage
